

SAMSUN NUHA

Aspiring Software Engineer | Full-Stack Developer | BSc (Hons) Computer Science

+94753360265 | samsun.nuha2020@gmail.com | linkedin.com/in/samsun-nuha | github.com/SamsunNuha

OBJECTIVE

Computer Science undergraduate (GPA 3.78/4.00) at South Eastern University of Sri Lanka (SEUSL), specialising in full-stack web development. Proven ability to independently design, build and deploy 6+ real-world web applications using PHP, JavaScript, React.js, MySQL and MongoDB. Seeking a Junior Software Engineer or Full-Stack Developer role to deliver scalable, user-centric digital products and grow within a high-performing engineering team.

EDUCATION

BSc (Hons) in Computer Science — South Eastern University of Sri Lanka 2023 – 2025*

Faculty of Applied Science | GPA: 3.78 / 4.00 | IEEE Member | AGNI Frames Editor

Key Subjects: Data Structures & Algorithms, Database Management Systems, OOP (Java), Web Development, Operating Systems, Computer Networks, Microsoft Office

TECHNICAL SKILLS

- Languages: Python, Java, JavaScript (ES6+), PHP, SQL
- Front-End: HTML5, CSS3, React.js, Angular, Bootstrap 5, Responsive Web Design, UI/UX Basics
- Back-End & Databases: PHP (MVC), Node.js, REST APIs, MySQL, MongoDB, XAMPP
- Tools & Platforms: Git, GitHub, Visual Studio Code, Android Studio, Postman, Linux (Ubuntu), Windows

ACADEMIC & PERSONAL PROJECTS

Employee Management System (SaM) 2025

Tech: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap GitHub: github.com/SamsunNuha/EmployeeManagmentSystem-SaM-.git

Web-based HR system with full CRUD for employee records, department management, attendance tracking and report generation.

Food Delivery Online — Tasty Nest 2025

Tech: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap GitHub: github.com/SamsunNuha/FoodDeliveryOnline-Tasty-Nest-.git

End-to-end food delivery platform: customer ordering, restaurant dashboard, real-time order tracking and admin management panel.

Fas Medical Laboratory Management System 2025

Tech: PHP, MySQL, JavaScript, Bootstrap GitHub: github.com/SamsunNuha/Fas-Medical-laboratory.git

Digital lab system covering patient records, test requests, results delivery and billing — replacing full paper-based workflows.

Resume Creator & Job Finder Platform 2025

Tech: PHP, MySQL, HTML5, CSS3, JavaScript, Bootstrap GitHub: github.com/SamsunNuha/last-update-resume-create-and-find-jobs.git

Dual-purpose platform: users build and download professional resumes, and employers can post or browse job listings.

Fas Foodie — Fast Food Web App 2025

Tech: PHP, MySQL, HTML5, CSS3, JavaScript GitHub: github.com/SamsunNuha/fasFoodie.git

Fast food ordering app with interactive menu, cart system, checkout flow and a back-end admin panel for inventory and orders.

Food Order E-Commerce Web App 2025

Tech: HTML, PHP, CSS, JavaScript, MySQL GitHub: github.com/SamsunNuha/Food-order.git

PHP and MySQL food ordering and delivery system featuring product catalogue, cart, checkout and full order tracking module.

CERTIFICATIONS & ACHIEVEMENTS

Introduction to HTML — SoloLearn 2025

Web Design for Beginners — CODL, University of Moratuwa 2025

IEEE Membership — Institute of Electrical and Electronics Engineers 2025

SOFT SKILLS

- Strong communication and teamwork | Analytical & problem-solving thinking | Self-motivated fast learner
- Adaptable to new technologies and workflows | Time management | English, Tamil, Sinhala — Fluent
